

Bobcat®

LOADER ATTACHMENTS

One Tough Animal™

ANGLE BROOM

MT52-MT55, 463-S330, A300, T140-T320

Sweep a clean path economically.

Put your Bobcat loader to work and clean up almost everything in sight with the 48-, 68- and 84-inch hydraulically driven angle broom attachment. Use it to sweep driveways, sidewalks, parking lots, loading docks, warehouses and more. Hydraulic angle on 68- and 84-inch models allow operator to change angle with fingertip controls. Excellent tool for clearing light snowfalls.

AUGER

MT52-MT55, 463-S330, A300, T140-T320

Dig 6- to 42-inch holes with speed and plumb-line accuracy.

The heavy-duty hydraulic auger bites in with high torque power. Because of its unique knuckle-joint design, the auger will hang plumb even on uneven terrain. Three models to choose from.

BACKHOE

MT52-MT55, 463-S330, A300, T140-T320

Turn your Bobcat loader into a powerful excavator with a full line of backhoe models.

Here's a part-time attachment that can handle full-time excavation jobs. Maximum digging depths range from 6 to 11 feet. Rear stabilizers are available for certain loader models. See the options column elsewhere in this sheet. Operator training course also available.

BALE FORK

S130-S330, A300, T140-T320

Stabilizes the load and prevents bale rotation when handling round, uneven or square bales.

The two small-diameter forks are also effective in transporting large square bales, and provide improved penetration in densely-compacted material.

BORING UNIT

MT52-MT55, 463

The easy way to install underground cables and flexible pipe.

Use the boring tool to install utilities under driveways, sidewalks and other obstructions with little or no damage to existing structures. Applications include placing electrical, telephone and television cables, and flexible water pipe for sprinkler systems.

BOX BLADE

S150-S330, A300, T180-T190

Makes flatwork and grading easy and accurate.

Available in two heavy-duty models: with and without laser control. The box blade without laser is designed for rough grading and landscaping. The laser model has a grade accuracy of +/- .25 inches and is designed for the precise grading required for most flatwork applications. Both models have a grading width of 84 inches.

BREAKER

MT52-MT55, 463-S330, A300, T140-T320

Break up concrete quickly and easily.

Choose from four models of this hard-hitting hydraulic breaker designed and built specifically for Bobcat loaders. X-Change® mounting system allows quick change from skid-steer or track loader mount to backhoe or excavator mount.

BRUSHCAT™ ROTARY CUTTER

S130-S330, A300, T180-T320

Clear brush and undergrowth as you've never done before.

The powerful cutting and mulching action of the dual-blade Brushcat rotary cutter clears a wide path as it cuts three-inch diameter branches and saplings as well as the thickest grass and brush. Available in two sizes.

BRUSH SAW

S130-S330, A300, T140-T320

Cut brush down to size!

With its 28-inch, high-tensile steel blade, the brush saw is the quick, convenient way to remove unwanted brush. It's ideal for cutting firebreaks, clearing pastures and grasslands, and clearing road and utility line right-of-ways.

BUCKETS

MT52-MT55, 463-S330, A300, T140-T320

When it comes to moving material, you can't beat a Bobcat bucket.

Choose from the widest variety in the industry, including utility buckets, construction/industrial buckets with teeth, low-profile buckets and snow/light material buckets for loaders.

CHIPPER

S130-S330, A300, T140-T320

Grind branches and tree limbs and reduce branch volume 10 to 1.

Unlike pull-type models, the chipper can easily be placed into back yards and remote areas with the maneuverability of a Bobcat® loader. Standard and high-flow chippers available.

COMBINATION BUCKET

MT52-MT55, 463, S130-S330, A300, T140-T320

Perform a wide variety of jobs with one attachment.

The versatile Bobcat combination bucket is ideal for dozing, grappling, leveling, digging, loading and dumping. It's built with heavy-duty cutting edges and hydraulic cylinders for long life on construction, demolition, landscaping and municipal jobs.

CONCRETE MIXER

S130-S330, A300, T140-T320

Mixes, transports and dumps concrete faster than a traditional stand-alone mixer.

Compact size makes it perfect for sidewalks, driveways, finish work, and footings and floors in small buildings. Mixer drum is made of 3/16-inch steel, with mixing fins of 1/4-inch reinforced steel for long life and durability. Drum rotates in either direction.

CONCRETE PUMP

S185-S330, A300, T180-T320

Places concrete in hard-to-reach areas.

With a standard hydraulic flow loader, the Bobcat concrete pump can place concrete up to 15 cubic yards per hour, or as much as 30 cubic yards per hour with a high-flow loader. It pumps as far as 250 feet horizontally and up to two stories vertically.

DIGGER

MT52-MT55, 463-S300, A300, T140-T190

Dig it – coming or going!

The Bobcat digger not only digs in both forward and reverse, it also has an astonishing number of uses. It transplants small trees and shrubs; removes rocks and stumps; carries and plants balled and burlapped trees. Put this versatile shovel attachment to work on a variety of jobs and watch it pay for itself with cost-effective efficiency.

DOZER BLADE

MT52-MT55, 463-S330, A300, T140-T320

The dozer blade turns your loader into a mini-crawler.

The 68-, 80-, 90- and 96-inch dozer blades feature a 6-way adjustable blade with electric-over-hydraulic controls for on-the-fly adjustments and a reversible 3-piece cutting edge. The 48-inch utility blade can be used as either a snow blade or a dozer blade.

DROP HAMMER

S175-S330, A300, T180-T320

Make short work of flatwork demolition.

Because the operator keeps the loader constantly moving – pausing momentarily to let the hammer drop to demolish the surface – large amounts of flatwork can be broken faster than with traditional hydraulic or pneumatic breakers. Up to 20 blows per minute.

DUMPING HOPPER

463-S330, A300, T140-T320

The handy, heavy-duty dumping hopper mounts as easily as a bucket on your Bobcat loader.

Drive it wherever needed to receive or dump material. Load it with a loader, compact excavator or by hand. It can be parked, detached from the loader, filled, then reattached to the loader and driven to the dumpsite. You can also use it to transport materials to hard-to-reach places.

FLAIL CUTTER

S175-S330, A300, T180-T320

Clear brush and small trees up to 3 inches in diameter.

The ideal attachment for use on lakefront property, construction sites, power line and road right-of-ways, trails and other areas needing brush and thick grass removal. Floating linkage lets the unit follow the contours of the land for effective cutting.

FORESTRY CUTTER

S300-S330, A300, T250-T320

Remove the trees you want; provide organic material for the ones you keep.

Use the forestry cutter to cut down trees or grind them into mulch from top to bottom. Simply lower the forestry cutter onto the tree and its fast-cutting teeth can rip it to shreds, or tear it to pieces by repeatedly hitting it from the side.

GRADER

S130-S330, A300, T140-T190

Turn your Bobcat loader into an accurate grading machine.

Features a seven-foot, six-way hydraulically controlled moldboard, operated with switches mounted on the loader's steering levers for easy control. For even more precise control on flatwork jobs, a laser control package is available that provides automatic control of the blade with an accuracy of +/- .25 inches.

GRAPPLE, FARM FORK/UTILITY

MT52-MT55, 463-S330, A300, T140-T320

Great on the farm or ranch.

The Bobcat utility grapple is ideal for handling bundled material, loose straw and manure. Use the fork separately or with a grapple. Grapple also fits C/I and low-profile buckets.

GRAPPLE, INDUSTRIAL

S130-S330, A300, T140-T320

Grapple bucket or grapple fork.

They allow easy handling of a variety of hard-to-manage materials in the industrial setting or construction site. They're built tough for reliability and long life!

GRAPPLE, ROOT

S175-S330, A300, T140-T320

Clear your worksite of roots, rocks and debris.

Great for land clearing, landscaping, demolition, construction, rental or buildings and grounds maintenance. Heavy-duty design improves wear life in tough applications. Curved skeletal teeth allow dirt to fall between teeth, leaving dirt on site.

LANDPLANE

MT52-MT55, 463-S330, A300, T140-T320

Remove large clods and rocks as you level and grade, going forward or backward.

The landplane breaks up hard ground and sorts unwanted debris from the soil. It can also be used like a bucket to transport material on site. Available in 48-, 72- and 78-inch widths.

LANDSCAPE RAKE

S130-S330, A300, T140-T320

Soil preparation for seeding, sodding, smoothing and finishing.

Break up lumpy soil and pick up rocks as small as 1/2 inch. Use the landscape rake for ground preparation for seeding, sodding and lawn leveling. One-pass coverage.

MOWER

S130-S330, A300, T140-T190

Mow down the rough stuff!

The mower is recommended for rough cut applications such as road ditch right-of-ways, golf course roughs and large acreage mowing. It is especially appealing to golf courses, landscape contractors, nurseries, hobby farms, municipalities and large-lot rural homeowners. Available in 72- and 90-inch widths.

PALLET FORK

MT52-MT55, 463-S330, A300, T140-T320

Move bulky, bagged or palletized material with ease.

The pallet fork attachment is ideal for all kinds of farm chores, including fertilizer handling, as well as applications in industrial plants, landscaping and construction sites where bales, bags and pallets have to be moved. Two models with hydraulically-adjustable forks are also available.

PLANER

S130-S330, A300, T140-T320

Make your Bobcat loader an efficient, cost-effective planing machine.

Mills asphalt and concrete surfaces; excellent for street repair. Various drum sizes available. Standard-flow planer is ideal for rental and utility uses. Surface planer is designed for removal of roadway lines, paint stripes and very fine surfaces. Curb planer mills slip-formed curbs to create a smooth approach from road into new driveway. Operator training course available.

REAR STABILIZERS

S130-S330, A300, T140-T320

A set of frame-mounted, quick-attach rear stabilizers provides increased tree spade and backhoe performance.

Stabilizers help transfer the weight of the loader to the attachment to optimize digging performance. Grouser bars also help prevent the loader from being pulled toward the work. Street pads available.

SCARIFIER

S100-S330, A300, T180-T190

Prepare hard-packed soil for digging or landscaping.

Use a Bobcat loader's power to rip the toughest hardpan. Adjustable skid shoes and teeth provide multiple depth ripping.

SCRAPER

463-S330, A300, T140-T320

Cleans packed-on mud, snow and ice.

The Bobcat scraper is the perfect tool to remove stubborn, packed-on materials such as mud, snow and ice from driveways, sidewalks, parking lots and bike paths. It can even be used to aid in floor tile and carpet removal.

SEEDER

S130-S330, A300, T140-T320

Accurate seed placement and adjustable metering.

Unlike broadcast seeders, the Bobcat seeder places the seed with the proper spacing and at precisely the right depth for better germination. It also eliminates broadcasting seed into unwanted areas. With a production rate of more than two acres per hour, the seeder is efficient and cost-effective.

SILT FENCE INSTALLER

S220-S330, A300, T180-T320

Erosion control made simple.

Meet erosion control regulations and avoid costly governmental fines. The silt fence installer is the fastest, easiest and most economical way to install silt fence for residential, commercial, industrial or highway projects.

SNOW BLADE

MT52-MT55, 463-S330, A300

Push snow aside before it's compacted.

Here's the ideal attachment for cleaning sidewalks, driveways, parking lots, alleys, service stations and warehouse lots. An optional end-wing kit turns the 84- and 96-inch blades into snow pushers.

SNOW V-BLADE

463-S330, A300, T140-T320

Scoop, clear, pile and push snow.

Bobcat snow v-blades have far more versatility than a standard snow blade or snow bucket. With five different blade configurations, the hydraulically operated v-blade gives operators a choice of ways to move snow fast.

SNOWBLOWER

MT52-MT55, 463-S330, A300, T140-T320

The perfect winter clean-up tool.

Blow snow off driveways and sidewalks or in those tight quarters where only a Bobcat loader can fit. Rotational spout directs snow where you want it to go. High-flow models are available for loaders with high-flow option package.

SNOW PUSHER

S130-S330, A300, T140-T320

Clear snow quickly on even or uneven surfaces.

The free-floating blade permits efficient snow removal on uneven surfaces; protects surfaces such as paving stones, decorative concrete and sloped sidewalks. Beats the competition for durability and smooth operation. Available in 94- and 120 inch. widths.

SOD LAYER

S130-S330, A300, T140-T320

Carry and lay a roll of sod up to four feet wide.

Lay sod in a fraction of the time with a fraction of the crew compared to laying by hand. Exclusive lock and pin system automatically prevents unrolling during transport.

SOIL CONDITIONER

MT52-MT55, 463-S330, A300, T140-T320

A versatile landscaping tool.

Use it to separate rocks and debris, grade, level, fill—even tear out old sod. Produces perfect beds for seeding or sodding. Pulverizes dirt clods while keeping rocks and debris ahead of roller action. End plates can be attached to simulate box blade.

SOIL CULTIVATOR

S100-S205, T140-T190

Remove weeds and prepare soil for planting.

Cultivating out weeds along shelter belts and orchards are just two ways to save time and labor with this attachment. It's also ideal for preparing shallow seedbeds such as food plots for wildlife, large garden plots and landscaping.

SPREADER

S130-S330, A300, T140-T320

Spread it fast and easy!

Use this handy attachment to spread most dry, free-flowing granular materials. Spread sand and salt for winter maintenance of parking lots, sidewalks, driveways and alleys. Spread grass seed and fertilize lawns. Mounts to skid-steer loaders and pickup trucks. Variable spreading pattern from 4 to 40 feet.

STEEL TRACKS

S130-S330

You'll get better performance in sand, snow and mud.

Float over soft, sandy, or muddy ground and get better traction on slippery surfaces with over-the-tire Bobcat steel tracks.

STUMP GRINDER

MT52-MT55, 463-S330, A300, T180-T320

Carbide-tipped teeth and fingertip controls make tree stumps disappear fast.

The model SG60 and SGX60 have a 58-in. reach and 80° arc, allowing you to cut large stumps up to 45-inch diameter without repositioning. The work group is mounted at an angle of 90° for excellent visibility. The SG30 has a maximum cutting height of 11-inches with a 90° arc.

SWEEPER/GUTTER BRUSH

463-S330, A300, T140-T320

Sweep clean, scrape mud going forward or reverse.

Ideal for construction, industrial or municipal jobs. Its reversible cutting edge helps cut caked-on mud, while the sweeper's poly bristles deposit dirt and debris in the container, which can be dumped when full. Optional gutter brush gets the dirt from curbs, along buildings and drainage depressions.

TILLER

MT52, 463-S330, A300, T140-T320

A great landscaping attachment.

Ideal for breaking up clumps and mixing compost or other materials into existing soil. Features bi-directional rotation, a six-inch maximum depth, offset mounting and replaceable, hardened tines. Three widths available: 38, 62 and 76 inches.

TILT-TATCH

S130-S250, T140-T190

Makes Bobcat buckets, pallet forks and other attachments even more versatile.

The Tilt-Tatch mounted hydraulic tool can rotate an attachment right and left 15 degrees from center, allowing you to position attachments independently of the loader when working on a grade. Or use it to dig a trench with the corner of the bucket.

TREE FORK

MT52-MT55, 463-S100

Get a grip on fragile trees and irregular objects.

Effortlessly handle balled-and-burlapped trees, potted trees, decorative rocks and other odd-shaped objects with the Bobcat tree fork attachment. It's ideal for lifting, lowering and transporting materials on landscaping jobsites or at the nursery.

TREE SPADE

S150-S330, A300, T140-T320

Dig and load trees in minutes!

The tree spade attachment turns your Bobcat loader into a transplanting unit. A tree can be dug, transported or loaded without the operator having to leave the loader. It not only digs trees, it also loads them onto a truck or trailer in minutes – and one person is all you need on the job!

TRENCHER

MT52-MT55, 463-S330, A300, T140-T320

Versatile trenching ability.

Use a Bobcat trencher for a variety of jobs. Adjustable digging depth capability. Manual or hydraulic sideshift gets close to walls. Trench cleaner is standard equipment. The model LT405 is designed specifically to take advantage of high-flow hydraulic capabilities of certain Bobcat loaders. Five models.

TRENCH COMPACTOR

S130-S330, A300, T140-T320

Compress soil after power or water lines have been installed in a yard, golf course or other shallow trench application.

The trench compactor features replaceable pads and works on a Bobcat loader with the lift arms in the "float" position while driving forward over the trench.

VIBRATORY PLOW

MT52-MT55

Place wire or pipe with minimal ground disturbance.

The vibratory plow pulls up to 1 1/2-inch diameter flexible pipe, cable or wire 6 to 18 inches below ground, while keeping ground disturbance to a minimum. Applications include new sprinkler systems, placing phone, TV and electrical wire.

VIBRATORY ROLLER

S130-S330, A300, T140-T320

Compaction tool for construction and flatwork.

The Bobcat vibratory roller features either a smooth or padded drum. The roller is ideal for flatwork, trenching and asphalt patchwork contractors. 48- and 72-inch widths available.

WATER KIT

S130-S330, A300, T140-T320

Spray the dust away.

Keep the dust under control when using Bobcat attachments such as the angle broom, sweeper, planer and vibratory roller.

WHEEL SAW

S175-S330, A300, T180-T320

Powerful cutting in asphalt and concrete.

Powered by a high-flow Bobcat loader, wheel saw models WS18 and WS24 cut through asphalt, concrete, frozen ground and wire mesh. Wheel saws provide a more precise cut than air or hydraulic hammers. Perfect for road repair and laying water, gas, electric and fiber-optic cables.

OPTIONS TO USE WITH YOUR ATTACHMENTS

ATTACHMENT CONTROL KIT

Controls additional functions on selected attachments from the operator's seat, with switches on the steering levers.

Attachment Control Device (ACD)

New electrically-controlled attachments are now equipped with an Attachment Control Device. The ACD electronically tells the G-series or later model loader which attachment is connected to it and identifies the requirements of the attachment.

A WINNING COMBINATION!

Featuring the exclusive Bob-Tach™ system for fast, secure attachment changes.

As quick as a snap, you can replace a bucket with a pallet fork, landscape rake, backhoe, auger, grapple and more, thanks to the exclusive Bob-Tach mounting system. The heavy-duty Bob-Tach system features spring-loaded, wear-compensating wedges for a secure fit time after time.

Exclusive Bob-Tach System

For fast, secure attachment changes, Bob-Tach frame (A) moves into attachment flange (B); handle (C) pushes down easily, pressing wedge (D) through frame and attachment hole for solid connection.

Power Bob-Tach mounting system also available.

The Widest Choice of Designs and Models of Any Loader Manufacturer!

Skid-Steer Loaders

Bobcat leads the industry with more standard features, including engine and hydraulic systems monitor with shutdown – and with options and accessories like the Power Bob-Tach™ mounting system – plus more available attachments than any competitor.

All-Wheel Steer Loaders

Four steerable axles minimize turf damage and marks on concrete or asphalt. Less repair plus lower on-site costs equal more profit for you! All-wheel steer loaders come standard with joystick controls and two-speed.

Compact Track Loaders

After a heavy rain, tracks get you back on the job sooner. A solid-mounted track undercarriage provides consistent tractive effort for extra pushing power and smoother leveling.

Mini Track Loaders

More than 20 available attachments mean you can work where only shovels and wheelbarrows could before. Easy to operate, economically priced – the only mini track loaders offering a removable platform to give you ride-on or walk-behind capability.

Bobcat attachments are engineered and manufactured to fit Bobcat loaders for optimum job performance, dependability and durability. That's **The Bobcat Attachment Advantage!**
